

## **Non-Linear Editor Specialist**

### **Job Description:**

Digital Video Group is looking for a career-minded individual to join our Engineering team as a Non-Linear Editor Specialist. The preferred candidate will have a technical background in Windows and Mac computer systems, video, and networking, with significant customer service skills. This job involves on-site installation of equipment, racks, and cabling, usually as part of an installation team. This is a great opportunity to work with one of the premier systems integrators in the Mid-Atlantic and to grow in the broadcast or video engineering field.

This is an entry level position with the need and capability for growth for the right individual to own this role within the company. What this isn't is a position for people looking for a road into a production company or position.

### **Basic job requirements:**

- Good working knowledge of Window 7, Mac OSX, and Windows Server platforms.
- Professionally dress and label cables.
- Understand and analyze signal flow throughout an audiovisual installation.
- Cope and be comfortable with fast-paced, evolving on-site conditions and requirements.
- Able to lift and move 50 lbs. of equipment.
- Have and maintain a clean driving record.
- U.S. Citizenship (required to enter most secure federal sites.)

### **Preferred Skills:**

- Read and reference CAD drawings and run lists
- Able to troubleshoot common signal flow issues
- Knowledge of professional Broadcast and Production equipment
- Basic understanding of Ethernet routing and switching
- Experience with Adobe Premiere, Apple FCP, or Avid systems a plus.
- Experience with news room or production workflows a plus.

- Pull and terminate Video, Audio, and Ethernet cables.
- NAS, SAN, Archive, Digital Asset Management System experience a plus.

**Location and Travel Requirements:**

This position is heavily on-site work. When not on-site, the Specialist will either work remotely from their home or be expected in our Mechanicsville, Virginia headquarters. Candidates located in the Richmond or Washington, D.C. metro areas are preferred. Relocation is not provided. Regional overnight travel throughout the Mid-Atlantic, potentially up to 75-90% seasonally, will be expected.

**Benefits:**

Digital Video Group is a 12-year-old profitable family owned business, where family truly comes first. We are a collaborative environment where sharing of knowledge and techniques is paramount. We work hard but play hard and we focus on growing together as a company.

Benefits include:

- Health care package
- Paid training
- Paid vacation
- 401(k) with company match
- Annual profit sharing
